RE: Notice of Public Community Meeting for Ottawa BESS 2

To whom it may concern,

In response to Ontario's Independent Electricity System Operator ("IESO") Long-Term 1 Capacity Procurement, Ottawa BESS 2 Limited Partnership is proposing to develop Ottawa BESS 2, a lithium-ion Battery Energy Storage System (BESS) located at 2393 8th Line Road, Metcalfe, ON, K0A 2P0, with a potential capacity of up to 75 Mega-Watt (MW), providing much needed electricity system reliability to Ontario.

Ottawa BESS 2 Limited Partnership was created by Compass Renewable Energy Consulting Inc. for the purpose of developing this project and is supported by Wahgoshig Solar FIT5 LP, a Qualified Applicant for the IESO's Long-Term procurements. More details on the IESO's Long-Term procurements are available online at: <https://www.ieso.ca/en/Sector-Participants/Resource-Acquisition-and-Contracts/Long-Term-RFP-and-Expedited-Process>

It is important to us that the Ottawa BESS 2 Project be successfully integrated and benefit the local community of the City of Ottawa. To accomplish this, we are seeking your feedback and engaging local Landowners, Municipalities, and Indigenous communities and would like to invite you to a Public Community Meeting to discuss the proposed Project and how it would benefit your community and help fulfill Ontario's future power needs:
